

A few months from now thousands of GE workers across the country will face off with GE in national contract negotiations. The stakes will be high. Will the unions succeed in stopping a further devaluation of GE jobs? Can we stop GE's attempts to impose more cuts? Or, will we win pay hikes to keep ahead of the cost of living? Will we repair some of the damage done to the GE health insurance? Will we stop further two-tiering of GE jobs? The outcome lies with the answer to this question: How many GE workers around the country, union **and** nonunion, will pull together to press GE for positive change? If you sit this one out, if you don't pull your weight, you only encourage GE to continue eroding the quality of all GE jobs. Here's how you can make a difference:

**Organize a Union** at your plant, then elect and send representatives to the national bargaining table in 2015. Email UE at [organize@ueunion.org](mailto:organize@ueunion.org), or call us at 800-608-0059, to find out how to get started. Initial organizing inquiries are strictly confidential.

**Sign up for a Solidarity Membership.** This is the way individual GE workers can show solidarity with union goals in national negotiations. With your membership you get negotiations bulletins, contract campaign materials, a copy of the UE-GE National Contract and a subscription to the union's newspaper. Sign up online at [www.ueunion.org/solidarity](http://www.ueunion.org/solidarity).

**GE made \$13 billion off our hard work last year, and profits are rising rapidly. If we want our fair share, we must stand together and demand it. Remember, In Unity There is Strength!**
