

***“Voting is the
foundation stone
for political action.”***

— Dr. Martin Luther King, Jr.

Honor Dr. King by Taking Action for Voting Rights

This weekend, our nation will celebrate the life and achievements of civil rights leader Dr. Martin Luther King, Jr. One of his most important achievements — voting rights for all people — is being undermined by voter suppression, gerrymandering, and Supreme Court decisions.

Dr. King’s family, along with faith leaders, civil rights leaders, labor leaders, and voting rights advocates across the country, have **issued a call to honor Dr. Martin Luther King, Jr. this year with ACTION**, by demanding passage of voting rights legislation and access to the ballot box.

Take action this week by making calls to your Senators and the White House:

Call the Senate Switchboard at (202) 224-3121 and urge your Senators to deliver on the Freedom to Vote Act and the John Lewis Voting Rights Advancement Act.

Call the White House Comment Line at 202-456-1111 and urge President Biden to step up the pressure on Congress to pass voting rights legislation.
